

ARTIST STATEMENT

Summer Roshni Bhullar
Washington Printmakers Gallery
August 2021- Associates Exhibition

My Art is my experiences with The Supreme Reality---The Supreme Being---Creation. I have named my original genre Supreme Reality Art. Supreme Reality Art is complete Art; transcendent-realistic-impressionistic-expressionistic.

I express through the art forms of painting, drawing, printmaking and photography.

I reveal the unmanifest and the hidden in the manifest, the latter I do through my Art photography.

The photographs that I am exhibiting for the Washington Printmakers Gallery August 2021 Associates show demonstrate that emotional expression is similar across the entire realm of life: human beings, animals, birds, plants, flowers, and even landscapes. Beauty is revealed in the natural expression of the self. I'm offering the beauty of these moments in the photographs which I'm presenting.
